PROJECTS

Radiance | Web Development Studio

Live ■

[\[HTML\]](#) [\[CSS\]](#) [\[Vercel\]](#)

- Placeholder landing page for an upcoming professional web studio project — a clean 'coming soon' cover built with pure HTML and CSS.
- The full studio website is currently in design/planning phase, to be built with Next.js, TypeScript, and Tailwind CSS.

PITCH — Football Game Reservation PWA

GitHub ■ Live ■

[\[React\]](#) [\[Firebase\]](#) [\[Vercel\]](#) [\[PWA\]](#)

- Single-page Progressive Web App for booking football pitches, featuring a player ranking system and real-time data updates via Firebase.
- Demonstrates real-time database integration, PWA configuration, and production deployment on Vercel.

Onyx Corporation — Pharmaceutical Company Website

GitHub ■ Live ■

[\[Astro\]](#) [\[Alpine.js\]](#) [\[Tailwind CSS\]](#) [\[Sanity CMS\]](#) [\[Vercel\]](#)

- Corporate multilingual website (EN/RU) for a pharmaceutical manufacturer, built with Astro for maximum performance and minimal JS footprint.
- Integrated Sanity CMS for content management, Alpine.js for lightweight interactivity, deployed on Vercel.

aoe.ge — Age of Empires 2 Georgian Community

GitHub ■ Live ■

[\[Next.js\]](#) [\[TypeScript\]](#) [\[Tailwind CSS\]](#) [\[Supabase\]](#) [\[Vercel\]](#)

- Collaboration project with Team Georgia — community website with live leaderboard data pulled from the official AoE2 Definitive Edition API.
- Full-stack Next.js app with Supabase backend; demonstrates API integration, real-time data, and team-based development workflow.

Reminder Notes — PWA

[GitHub](#) [Live](#)

[\[HTML\]](#) [\[CSS\]](#) [\[JavaScript\]](#) [\[Firebase\]](#) [\[Netlify\]](#)

- Lightweight Progressive Web App for personal notes and reminders with Firebase persistence.
- Built with vanilla JS — no framework overhead — showcasing confident use of the platform without dependencies.

Text Editor — Google Docs Clone

[GitHub](#) [Live](#)

[\[Next.js\]](#) [\[TypeScript\]](#) [\[Tailwind CSS\]](#) [\[Liveblocks\]](#) [\[Clerk\]](#) [\[Supabase\]](#) [\[Vercel\]](#)

- Feature-rich collaborative text editor inspired by Google Docs, built following the 'Code With Antonio' course.
- Integrates Liveblocks for real-time collaborative editing, Clerk for authentication, and Supabase for persistence — demonstrates command of a full production stack.

zgaprebi.ge — Georgian Audio Fairy Tales Platform

[GitHub](#) [Live](#)

[\[HTML\]](#) [\[CSS\]](#) [\[JavaScript\]](#) [\[PHP 5.6→8.3\]](#) [\[DirectAdmin\]](#)

- Online library of Georgian-language audio fairy tales — a long-running personal project originally launched in 2015, actively maintained and upgraded from PHP 5.6 to PHP 8.3.
- Demonstrates longevity, ownership, and the ability to maintain and modernise legacy codebases.

Personal Portfolio Website

[GitHub](#) [Live](#)

[\[HTML\]](#) [\[CSS\]](#) [\[JavaScript\]](#) [\[GitHub Pages\]](#)

- Built from scratch with zero frameworks — pure HTML, CSS, and JS — targeting sub-100ms Time-to-Interactive.
- Reflects a performance-first philosophy and deep understanding of web fundamentals without framework abstraction.

Ancient AoE2 Community Site — ©2004

[GitHub](#) [Live](#)

[\[HTML\]](#) [\[CSS\]](#) [\[JavaScript\]](#)

- The very first website of the Georgian Age of Empires 2 community — hand-coded in 2004, preserved and archived on GitHub.
- A 20+ year journey in web development: from this page to modern TypeScript full-stack apps.
